GOVERNMENT OF INDIA

DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

FORESTS.

Simla, the 5th May 1926.

RESOLUTION.

No. 436.—The Governor-General in Council, with the approval of His Majesty's Secretary of State for India, has decided to inaugurate from the 1st November 1926 at the Forest Research Institute and College, Dehra Dun, a course of instruction in Forestry up to the standard required for the Indian Forest Service. The course of instruction which will begin on the 1st November each year will extend for over a period of two years and students qualifying at the end of that term will be awarded a diploma. The training will be supervised by the President of the Forest Research Institute assisted by a Professor of Forestry and a number of Instructors in Forestry and subjects auxiliary to it. It will follow the lines which have proved satisfactory at Cooper's Hill and at the Universities of Oxford, Cambridge and Edinburg, where probationers for the Indian Forest Service have been trained hitherto. Arrangements will be made to ensure that the training which it is proposed to impart at Dehra Dun will be in no way inferior to that now obtainable at the Forestry Schools in Great Britain.

2. For a career in the Indian Forest Service and for admission to the new advanced course at Dehra Dun, a good general education and a substantial knowledge of one or more branches of natural science, with proficiency in Mathematics and English are essential. The Government of India desire that this point should be emphasized for the information of the intending candidates.

3. The course will be open to students of the following categories:—

(1) Probationers for the India Forest Service who will be selected in accordance with regulations which will shortly be published.

(2) Students from Indian States and private students desirous of obtaining the Forestry Diploma who have reached a qualifying standard which will be prescribed by the Forest College authorities.

(3) Indian Forest Service or Provincial Forest Service officers deputed by Local Governments to undergo the course of training.

(4) Students deputed by Governments of Provinces in which Forests are a transferred subject, preparatory to their appointment to services in those Provinces constituted in substitution of the Indian Forest Service.

(5) Officers in class (3) who are not deputed but are permitted to undergo the course at their own request while on leave.

(6) Private students who have obtained a Provincial Forest Service Course Certificate.

(7) Students deputed by Governments of countries outside India.

4. Fees for the two year course will amount to Rs. 4,800 per student. This will cover cost of tuition, also of lodging, light and water and other services at Head Quarters for the two years. All other expenses such as cost of messing, books, instruments, clothes, travelling expenses, etc., must be met either from the students themselves or by the authorities who send them for training at the Forest College.
